NEURO ICU service

Team: Neuro senior resident, Neuro Jr. resident, EM resident, MICU fellow vs Stroke fellow (communication usually via WhatsApp). The Attending is Dr. Kapinos.

Daily Activities:

- 7AM @ D2S conference room: receive ICU signout sheet
- 8:30AM rounds with Kapinos (depends on census)
- 10AM-SPM see consults, write notes (can go to resident lounge to write notes as no dedicated computers)
- SPM sign out (sign out sheet that senior does, but not our job to update)
- Neuro ICU functions as a consulting service. (You are not expected to, nor will you be asked to place orders for patients.)
- Downgrades: If you are a consultant on a patient that is ready to be downgraded from the ICU, and the NICU team agrees that this patient is suitable for Neurology Floor Service, the NICU resident MUST find the Neurology Ward senior and sign-out the patient. Only AFTER the Neurology Ward senior accepts, then the NICU team can inform the ICU to downgrade the patient

Helpful Neuro Nuggets

"ICU of consciousness" - per Stroke fellow

*always trying to figure out the consciousness changes in a patient and why it has changed

5 main subjects:

- Level of consciousness (GCS, RASS, FOUR score).
- Pupillary responses,
- Vital signs,
- limb movement/strength,

NEURO CONSULT service

Equipment:

- bring stethoscope, light, reflex hammer, +/- ophthalmoscope, +/- tuning fork

Daily Activities

- 7AM: Signout @D2S

NEURO HDU

♦ *“High Dependency Unit (HDUs) Some hospitals have High Dependency Units (HDUs), also called step-down, progressive and intermediate care units. HDUs are wards for people who need more intensive observation, treatment and nursing care than is possible in a general ward but slightly less than that given in intensive care.”*
